CASE REFERENCE

Locked fields remain untouched by the agent.

FORMPROOF SAFETY MODEL

Draft first. Verify twice. Export once.

Values are staged, reviewed by a person, and written to a fresh copy.

The source and output SHA-256 hashes bind the audit receipt to exact bytes.

Support details and attestation

Page 2 - requested services, review notes, and human-only controls

HUMAN APPROVAL REQUIRED

Agent changes remain a draft until every flagged value is reviewed on screen.

REQUESTED SUPPORT

CONTEXT FOR REVIEWER

WITNESS INITIALS

Reserved for the in-person reviewer.
WebMCP cannot stage or approve this field.

REVIEW STATUS

APPROVAL IS NEVER AN AGENT TOOL

APPLICANT SIGNATURE *

Sign in a trusted PDF reader after reviewing the exported values

Blank signature widgets are detected and locked as human-only.

EXPORT RECEIPT

Source hash + plan hash + approval version + output hash
